

Feel 100% Better with ROF Pranic Healing

Student Amazed

I have to share with you!

It's that time of the month and I'm usually laid up with really bad pain. Yesterday morning when I woke, I could feel the pain starting. So I did some pranic. First time in over 10 years I'm not in pain I'm blown away! It worked.

Remote Healing

I was referred to Margaret to help with my daughter who suffers anorexia and bulimia. As we are in another country I had no idea how this would work, but I was desperate. Margaret did a remote treatment. Chloe, is so very different. She has gained 3 lbs. and is a lot happier. Whatever ROF Pranic did I am very grateful. Thank you.

Sports Injury

My child had a nasty accident and broke her ankle needing extensive surgery. After Margaret performed the remote treatment, my daughter did not know she had, she came home from gymnastics saying it was the first time she could perform "everything" since her accident. The treatment broke through the fear and fixed the stiffness. Wow is all I can say.

Healing

What is ROF Pranic Healing?

We all have a physical anatomy and a corresponding metaphysical energy anatomy that is intrinsically connected to form a complete person.

Scientists validate the existence of an energy field that surrounds and interpenetrates the human body & nourishes it with life force or Prana. Frontier scientists describe us as quantum packets of energy, continuously transmitting & receiving energy. We have an energy anatomy which control physical, emotional and mental functions. This energy field gets contaminated and damaged, thus, physical, emotional and mental imbalances are the outcome. Pranic healing techniques cleanse, energize and regulate the energy field to restore harmony and balance physically, emotionally and mentally. These techniques can also be used to correct imbalances in vortices of energy that control all human activities such as relationships, finance, work & home environments.

What does a treatment involve?

The therapist does not touch the body of the client, who is seated comfortably. The therapist scans the energy field to locate areas of imbalance. Pranic healing techniques are used to cleanse and energize the energy field and rebalance its energy anatomy. Most people feel very relaxed and "light" when the dirty, stagnant energy is removed and fresh vital force is infused. Tension and headaches respond almost immediately to treatment. As this is a scientific method, treatments are specific to conditions and results are consistent. The methods are safe, nontoxic and effective and complement existing western medicines.

Some of the disorders that can be treated

Products

- Programed Aura Sprays
- Healing Crystals

How quickly can I expect to see results?

With simple conditions you may see results instantaneously. With long term and chronic complaints the response is slightly longer but used in conjunction with other therapies or medical treatments the healing time is greatly reduced. For example, fresh minor cuts and burns can be healed completely in a few minutes, using Pranic Healing. Some conditions deemed untreatable by conventional methods have responded well after only one pranic healing treatment. Pranic healing is not intended to replace existing medical treatments and compliments all systems of therapy.

Pranic Healing works!

Smoking: Addiction

I had been smoking heavily for over 30 years. I am an energy worker and volunteered to get rid of this in ROF Level 3 in class. Hoping it would work. Margaret did the first treatment for the class to learn. I was nervous for many reasons. I felt her pull something out of me over and over again. We discussed it. One student smelt the smoke from back of room as treatment happened. I have not smoked since and had 8 consecutive weeks of remote treatments to keep me on track. I still have hand movement and sometimes a desire but not smoked since. So have \$ in my pocket and my health is better.

My son has spectrum disorder and we have had a very bad relationship after the abuse from his father. I arranged for a treatment and felt I had nothing to lose, no matter how weird it seemed. The next day he came out of his room and said, "I must go to bed earlier so we can walk around the lake more!". My daughter and I looked at each other in shock as he was addicted to his Xbox and never ventures out. His energy, moods and grades at school have improved so much and I believe this treatment from Margaret has been the reason for his improvements. From our hearts to yours
